

The International Organisation of Physical Therapists in Paediatrics Invite you to our First INTERNATIONAL Webinar

May 25, 2022

12:30 GMT

VIRTUAL SESSION/ FREE REGISTRATION

I. PURPOSE

The purpose of this session is to introduce the IOPTP “Paediatric Essential and Recommended Content Areas in Entry-Level Professional Physical Therapy Education” statement. The rationale for the paediatric content areas will be discussed and the audience will be provided with some strategies on how to include and teach these components in an entry-level physical therapy education curriculum.

II. OBJECTIVES

After completion of this session, participants will be able to:

- 1) Recognize the essential and recommended components of paediatric contents to be included in an entry-level physical therapy education.
- 2) Distinguish (discriminate) between the essential and recommended components of paediatric content to be included in an entry-level physical therapy education.
- 3) Discuss and provide rationale for including these contents.

III. AUDIENCE

The primary audience for this session is physical therapy faculty involved in curriculum development and physical therapy faculty involved in teaching paediatric content in physical therapy entry level educational curriculum, both in the academic and clinical education setting.

Paediatric Essential and Recommended Content Areas in Entry Level Professional Physical Therapy Education: A Global Perspective CE Hours 1.5/ Webinar
